

- **A list of action items that were completed.**
 - (/3pt) **State your new accomplishments that can be verified.**
 - Basic Navbar that changes based on the type of user you are
 - For now, it's just an int representing the user's status, once the log-in and sign-in are implemented the user's status will be pulled from the backend
 - Check Answers: the Done button will check your answer and the number of wrong squares will be displayed in the console.log
 - This will be moved and directly displayed on the HTML soon (WIP)
 - (/1pt) **State the features that have been finished so far.**
 - Users can refresh the page for a new puzzle
 - Users can press on give up button to view the answer
- (/1pt) **the current milestone in progress with the target completion date**
 - **M3 (3/5 - 3/14):** Add log-in, sign-up, and log-out
